

# CL-150 Connect

Do more than replace a physical classroom with a virtual classroom.

Blended learning, better outcomes

CL-150 Connect programs blend technology and human instruction to support career-long language capability, from acquisition to enhancement.

- ✓ **Training efficiency:** Learners alternate between tech-delivered lessons and live skills development with an instructor. Pre-class work prepares learners for higher-value face time, tightly aligned to the curriculum and desired outcomes. (Learn more about our blended learning methodology), resources—that learners regularly refresh.
- ✓ **Logistical flexibility:** Complete independent learning on any computer, tablet, or phone and meet with your instructor in a virtual classroom—with no time or place restrictions. Full-time or part-time, in-place or at school, your curriculum or our materials.
- ✓ **Program visibility:** Instructors can track and report on lesson completion, time on task, assessment scores, and more to quickly identify learners in need of more support. Administrators gain the same visibility during and after courses, ensuring career-long sustainment.
